(Copy.)

OTTAWA, 13th October, 1904.

SIR,—During the past year the Canadian Government have received representations from various persons connected with the sealing industry in British Columbia against an Ordinance of the Legislature of the Falkland Islands, dated 8th September, 1903, under which the Governor is authorised to impose a tax upon sealskins imported into that colony for the purposes of transshipment or exportation. These representations were duly communicated to His Majesty's Government. In a despatch to His Excellency the Governor-General, the Secretary of State for the Colonies declares that after due investigation he has decided not to advise His Majesty to exercise his power of disallowance in respect to this Ordinance, and that it will be enforced next season by the imposition of a duty of ten shillings per skin, this amount however, to be reduced from ten shillings per skin to one shilling per skin in the case of all skins which the Governor of the colony is satisfied were not taken in the close season.

The Secretary of State would be obliged by your taking steps to cause those persons in British Columbia who are interested in the sealing industry to be informed of this decision of his Majesty's Government.

I have etc.,

JOSEPH POPE,
Under-Secretary of State.

His Honour the Lieutenant-Governor
of British Columbia,

Victoria, British Columbia.

In the *BRITISH COLUMBIA GAZETTE*, and in one newspaper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition, and copies of such notice shall be sent by the parties inserting such notice to the Clerk of the House to be filed amongst the records of the Committee on Standing Orders.

57. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, *together with the notices published*. At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House a sum of three hundred dollars. If a copy of the Bill, Petition and notices shall not have been so deposited in the hands of the Clerk of the House at least eight days before the opening of the Session, and if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees paid shall be returned.

61. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills:—Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be re-cast by the promoters and re-printed at their expense before any Committee passes upon the clauses.

65. All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring 10½ inches by 7½ inches. NEW WESTMINSTER CITY BY-LAWS.

ELECTRIC LIGHT BY-LAW, 1904.

A By-law to regulate the rates, conditions and terms under or upon which electric light may be supplied to and used by the inhabitants of the City of New Westminster.

THE Mayor and Aldermen of the City of New Westminster, in Council assembled, enact as follows:—

(1.) That the following rules and regulations be and the same are hereby established for the fixing, regulating and controlling the use and price of electric light furnished by the City of New Westminster.

(2.) It shall be lawful for the Corporation to contract with any person, corporation or company for supplying with electricity for light any such person, corporation or company, and for such purpose may from time to time fit up, connect and furnish any electric line, cable, wire, pipe, switch, connection, branch, burner, lamp, meter, or other apparatus, and to let any such apparatus for hire or for such sum as may be agreed upon: Provided, however, the Council of the Corporation, before supplying electricity or making any connection, or as a condition to the Corporation continuing to supply the same, may require any customer to give reasonable security for the repayment to the Corporation of the costs of making such connection, and for the payment of the proper charges for electric supply and for rent of instruments: Provided, however, that all persons supplied with electric light by the Corporation may be required to place and use only such lamp as may be approved by the Council.

(3.) Applications for electric light must be made on printed forms furnished by the City at the office of the City Treasurer, and it must be signed by the owner of such premises or by his duly authorised agent signing as such, and such owner shall be personally responsible for the payment of all rates and rents until he shall have delivered to the City Treasurer a duly signed notice ordering the discontinuance of such service, and whenever the supply of electric light shall have been cut off from or in respect of any premises for non-payment of any light rates, the supply shall not be restored, nor shall any light be supplied thereafter to or for the same premises, until all such rates have been paid. The applicant must agree to conform to these rules and regulations, and any modification hereof that may be established from time to time, as a condition for the use of such electric light.

(4.) Any person desiring to discontinue the use of electric light must give notice in writing at the office of the City Treasurer. Electric light will be charged for at the regular rate until such notice is given.

(5.) The City reserves the right to discontinue the supply of electric light at any time or instal a meter to register the electric light current of any consumer and charge the rates provided for in this by-law.

(6.) If any person increases the ampere consumption, or causes the same to be increased on any service in any manner whatever, in excess of the stipulations in his contract, to the detriment of the city, without first having obtained the permission of the City Council, he shall be held responsible to the City for any and all interruptions in the service or damage to any of the City's meters, transformers or appliances used in connection with the electrical department caused by such

change or increase, and shall be guilty of a breach of this by-law.

(7.) No person shall make connections with the City's wires, or connect wires when they have been disconnected, or make any alterations in any service connected with the City's wires, without the permission of the City Council. No connections shall be made until the wiring and appliances on the premises to be connected have been properly inspected by the City Electrician when the wiring or fixtures in any building is found, upon examination by the City Electrician, to be defective, the service may be discontinued and so remain until the wiring and fixtures are put in such an improved condition as will meet with the approval of the City Electrician, and any person who violates any part of this section shall be guilty of a breach of this by-law.

(8.) All lamps, lines, meters or appliances of any kind which are the property of the City shall not be moved or handled except by an employee of the City, and any handling by any person or persons, other than an employee of the City, shall relieve the City of all responsibility for interruption or irregularity of its electric current, and such person or persons violating any of the provisions of this section shall be liable to the City for any injury or damage resulting therefrom, and shall be guilty of a breach of this by-law.

(9.) In case the electric current is interrupted from any cause due to neglect on the part of the City, the only liability of the City shall be to rebate for the actual time of such interruption where meters are not in use, but no allowance will be made unless notice is given in writing at the office of the City Treasurer within twenty-four (24) hours after such interruption occurs. Where meters are used for determining the amount of electric current used, there will be no allowance made for any interruptions.

(10.) The City Electrician and all persons under him in the employ of the City, and every person delegated by the City Council for the purpose, shall have free access at reasonable hours to all premises supplied with electric current for the purpose of inspecting the wiring or fixtures, reading meters, or removing lamps, wires or fixtures which are the property of the City.

(11.) In the event of a meter getting out of order and failing to register, the consumer shall be charged at the average daily consumption as shown by the meter when in order, or in the event of the person who is delegated by the City to read meters being prevented from gaining access to the same by no fault of his or the City's, then an average bill shall be rendered for lights, and an assumed reading shall be made, equivalent to the amount charged for lights, and payment made thereof shall be placed to the credit of the consumer the same as though the meter had been read. Should the assumed readings be in error, the accounts shall be properly adjusted when the meters are read. Should a consumer at any time demand a test of the meter or meters installed on his premises, the City Electrician shall proceed forthwith to test the same, and if he shall find that the said meter is in order, the consumer shall be required to pay his current month's bill the amount of the regular Government fee for such test, but if the same shall be found to be defective, then such test shall be made free of charge to the consumer and the accounts shall be adjusted accordingly.

(12.) No City lines shall be extended on any street in the City unless sufficient business is offered amount-

ing to the equivalent of at least two applicants for each three hundred feet extended; provided, however, that this rule shall not be construed to prevent the City Council, at its discretion, from extending the wires of its lighting system into any part of the City when it may be deemed advisable to do so.

(13.) All bills for electric light are due on the first day of each month for the month previous, or up to the time when a record was last made of the meter reading, and shall be paid to the City Treasurer on or before the 10th day of each month, and if not paid on or before the 10th day of the month, they shall become delinquent and the consumer loses the advantage of the discount. If bills are not paid by the end of the month, the City Council shall forthwith cut off the connections and discontinue the supply of light until the account shall be paid:

(14.) On failure to comply with the rules and regulations as a condition for the use of electric current, or to pay the rates at the time and in the manner prescribed in section 15, the electric current shall be discontinued until payment is made of all amounts due, together with an additional sum of fifty cents for the expense of turning off the current, and if payment is not made within fifteen days after the current has been discontinued, the meter shall be removed from the premises, and the application or contract for current shall be cancelled, and can be renewed only after all accounts due have been paid:

(15.) The rates for electric current for lighting purposes shall be for the quantity used in any one month as indicated by the meter or meters which shall be installed on the service for the purpose of registering the quantity of electric current used, and shall be as follows, except where otherwise provided:—

For the first 30 kilowatt hours, 13 cents per kilowatt hour;

For the next 30 kilowatt hours, 12 cents per kilowatt hour;

For the next 40 kilowatt hours, and over, 10 cents per kilowatt hour;

The rates for electric current for hospitals, educational and charitable institutions shall be at the rate of 10 cents per kilowatt hour;

The rates for electric current for display-signs and window-lights for business houses shall be such as may be determined from time to time by the Council: Provided, however, that the minimum charge for electric current for any one service shall not be less than fifty cents for one month;

(16.) On all meter accounts paid at the office of the City Treasurer on or before the 10th day of each month, a discount of 20 per cent. will be allowed on the previous month's account, provided all arrears due by the consumer are paid up:

(17.) Any person guilty of an infraction of this By-law shall be liable, on summary conviction, to a penalty not exceeding one hundred (\$100.00) dollars:

(18.) This By-law may be cited as the "Electric Light By-law, 1904."

Done and passed in open Council, the 14th day of November, A.D. 1904.
